

Industry Leading Horse Walkers, Tenderfoot Rubber Flooring & Stable Accessories, Stabling Solutions, Round Yards, Arena Rakes & Manure Spreaders

For years, **Priefert Australia**, has been providing a wide, innovative range of horse equipment all over Australia and New Zealand and has now become known as “the horse person’s choice”.

A one-stop shop for everything you need to fit out an existing or new stable barn or shed. Also, as we are the ABI Attachments distributor in Australasia, we have many implements and attachments built specifically for the horse person and their farm maintenance.

Priefert Australia has the proven resources, experience and dedication to work from the ground up on any horse or farm development.

Priefert Australia, has worked with the world’s leading Equine Architects and Designers all over Australia demonstrating the ability to adjust and fit into any project of any size.

Although most of our customers are passionate horse owners on smaller acreage, we strongly believe that any size is important and that each owner deserves the attention that the larger operations demand.

It is with these customers that Priefert Australia can really shine with their hands-on consultation and advice.

Who are we

Everyone involved with Priefert Australia has been employed in, currently compete with or breed horses. They have a passion for horses and through life involvement, have recognised the needs and the quality the passionate horse owners demand.

All products provided by Priefert Australia have been used, tested and must have ticked all the boxes demanded by the people at Priefert Australia and their customers.

Premier Stables AELEC Tamworth

Experience

Priefert Australia equipment is widely used throughout Australia and New Zealand by some of the top studs, stables, farms, organisations and institutions.

Our customers choose Priefert Australia equipment because they are looking for something different without sacrificing safety and quality. They are looking for support in their developments and experience in the design.

Innovation

At Priefert Australia we have a motto – Innovation Not Imitation – we have been in the horse game so long, working with barn grooms to farm managers, that we have seen what works and what does not – first hand.

By continually innovating, we are able to offer a higher standard of equipment that is more adaptable, durable and offering them at affordable prices.

When you purchase a Priefert Australia product, you are purchasing peace of mind that it will last and will be an asset to your barn and property.

Willinga Park – Mr Terry Snow

Stables

Whether you are an individual horse owner or a large showground or expo centre, Priefert Australia offers a variety of stable styles to best meet the needs of you and your horses. We have an unlimited range of sizes, materials and finishes as it is entirely your choice!

Expo Stables – Designed for budget and fast easy bump in and pull down. Used extensively all over the US, they have more than 30 years safety and durability purpose record. Public, private or government facility stabling solutions.

Premier Stables – Similar to the Expo with upgrades and size options. Now designed to be demountable or permanent, these stables have a 10-year record in Australia. As seen at AELEC, William Inglis Oaklands & Boneo Park.

Commercial Stables – Many finish options in Hot Dip Gal, Powder Coat or raw Gal Finish. Design options and upgrades including 360 grain & hay feeders. Designed for fast affordable installations.

Design Options & Upgrades

Priefert Australia offers a line of Stable Solutions that can be designed by you. Looking through our options, you can customise or theme your barn to your style.

You can always consult with us to come up with the best design that suits your discipline, breed layout and importantly – budget.

Beginning with our **Standard Stable** front design you have endless options to add on. Our standard is with our fold-back window in the door – Gal steel finish and 38mm Tongue & Groove timber infill.

Upgrade to Bamboo infill – Powder Coat or a 360 feeder

Make it your own – **Horizontal Timber Features**
– **Arches** – **Brass Finals**

One of our most popular designs – **The Cheval**

We offer a variety of divider walls, back and end walls that adapt to your stable theme with fills and finishes in any size.

We specialise in Day Yard doors, various window designs and a variety of custom options, all to fill your needs and plans.

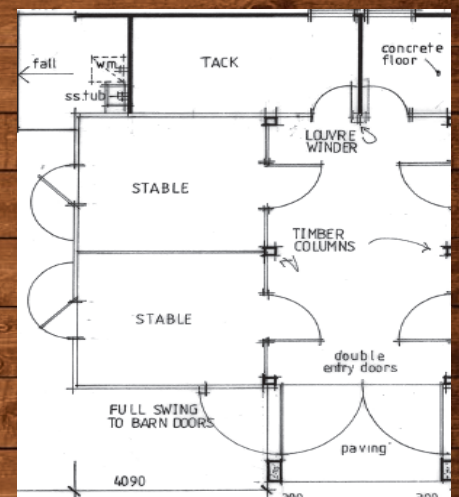

If you have a design of your own or a custom variation, we can accommodate. We can theme any barn, anywhere.

Design & Construction Support

If you have plans or even need a starting point for your development, we have years and a world of experience to get you on the right foot. If you are an architectural firm or a development group, we have the references and the ability to accommodate, develop or design in any scale – on time.

In the last decade, we have been involved in the development of some of the country's largest and most complex stable builds and systems. We have the experience, together with other contractors involved in your build and plans, to assist in the design and construction, thereby offering ease of mind.

As often the case, other contractors have little experience in the equine world and appreciate guidance.

Accessories, Infills & Finishes

38mm Tongue & Groove fitted timber

Auto waterer

Big drink 6L stable waterer and 10L yard waterer. Strong troughs designed to take what horses dish out.

Stable feeder options

360 feeders, hanging Hay Grain, Bucket and bracket.

Bamboo

Bamboo is one of the hardest woods known to man. Sustainably grown and harvested – Bamboo is the ultimate stable infill.

HD Poly

Priefert's High Density Polyethylene is like no other in that it has a custom blend of materials unique to Priefert to withstand brutal punishment from any horse.

Hot Dip Gal steel

Raw Gal Steel
Standard finish.

Powder Coat finish

Adds steel protection as well as a beautiful finish in any colour. Great way to theme your barn.

Horizontal Timer upgrade
Decorative.

Horse Walkers

Priefert Walkers have rewritten what the horse world knew about walkers. We have redefined what is required for safety, efficiency, durability and reliability.

Our design is for **Airflow** – horses need air when exercising – they don't get this in rubber rubber-walled.

We have designed walkers so your horses can be **seen while at work** – important when an athlete has an injury.

The surface is the most important factor – we have designed the **fences to keep the surface in** and to operate a surface drag.

Designed for fast easy installation just about anyone can do. No special electrical needs – electrician simply wires to power source.

- Manual & Remote control Standard
- Surface drag option
- Little to no servicing

Used by leading facilities such as Willinga Park, Federal Government Post Entry Quarantine (if you have imported a horse – they have been on a Priefert Walker).

Used on leading breeding farms, King Star Farm, Fernrigg and Robrick Lodge Thoroughbreds.

Used by University of Melbourne – Werribee Vets and many leading cutting horse trainers such as Link Baumann, Jason Leitch, Jamie Creek and Scott Johnston.

Proven
The Australian Government Post Entry Quarantine facility.

Technology
Adaptable technology with the remote control, Planetary Gear Drive.

Tenderfoot Rubber Flooring

Specifications

- 915mm x 1220mm
- 19mm thick
- 23kg
- Smooth side up – rough side goes down
- The mats are very easy to install – Any mats that need fitting, use a straight edge and Stanley knife to cut to fit.
- Should you like to “glue” them down, use SIKA PRO from any hardware store.
- They can be laid successfully on compacted surfaces such as road base, quarry dust or crusher dust.
